

What is Kajun, Who We Are?

KAJUN, which has been serving since 2017, is a restaurant chain that is growing day by day, providing a friendly and caring service to its guests, offering a delicious and affordable dining experience, making its customers feel at home, and doing this in the spaces it has designed with the concept of "American Diner".

We have been operating in the Restaurant and Service industry since 1986. We opened our first branch as 'Kajun', which we created within the Kajun Food Corp. (Kajun Gida A.Ş.), which we established in 2017. The majority of our menu consists of coated chicken and its varieties. All recipes and flavors are created by us thanks to our know-how that we have built up with our sectoral experiences abroad and at home. As of the end of 2022, we havereached 16 branches in Ankara, Istanbul, Kırşehir, Kırıkkale and the Philippines, which is our first overseas restaurant.

It is extremely important for us to able to serve unique and special meals to our guests. For this, we cook our meats and breads fresh in our kitchen fresh and daily, and We prepare our own spices and sauces. Likewise, all the vegetables on our menü are also fresh and daily bought, cut and served to our quests. As Kajun, we think not only of our guests, but also of the future of our environment and our environment and our animal friends, who are a part of this environment. All food left over in Kajun is delivered to shelters and voluntary organizations that help stray animals in need, so that our stray animal friends, with whom we share nature and are a part of our lives, do not go hungry.

In short, the main thing for us is to ensure that our guests can enjoy our unique, special, natural and pure tastes and cheerful, lively environment during their time in Kajun, while contributing to the protection of the environment and the future of the creatures living in this environment.

Why Kajun?

What distinguishes us from others is that we keep customer satisfaction above everything else. Our primary goal is to ensure that our guests visit us again and again, with love and enthusiasm. In order to achieve this, we believe that there are 3 important points in customer satisfaction.

During the time our guests spend in Kajun, we take care of their every request. We establish good, sincere and lasting relationships with our guests, while keeping the quality of our menu at the highest level, we keep the prices as low as possible. We believe this makes us special.

Bring more...

To offer a wide, delicious, yet economical product range. While doing this, we keep prices accessible without sacrificing quality.

SMILING FACES

From the first moment our guests enter the door of Kajun until they leave to come again, they will receive a caring, sincere and complete service by a young, dynamic and friendly staff.

How do we maintain the same taste and quality in our branches?

Our branches supply and produce the spice mixes specially and formulated for us in order to produce standardized recipes for each recipe we create.

Are there any harmful additives in our spice mixes?

No, chemical additives known to be harmful to health are used in any of our products.

Do we use frozen products?

Except for french fries, all of our products are produced fresh fresh Daily in each branch. (chicken, hamburger patties, all types of bread, sauces, etc.)
